

# InsightIQ AI Data Analysis Report

## Dataset Summary

**Dataset:** Sales Dataset

**Rows:** 500

**Columns:** 8

**Target Column:** Sales

**Problem Type:** Regression

## Data Quality

**Missing Values:** 0

**Duplicate Rows:** 0

**Outliers:** 0

## AutoML Result

**Best Model:** Random Forest

## AI Explanation

The dataset is clean and suitable for machine learning.

Random Forest achieved the best performance.

## Recommendations

- Collect more data for better predictions.
- Monitor model performance regularly.
